

SENIOR PIPING DESIGNER
(Full-time Employment)
Richmond, BC

Fransen Engineering, based in Richmond, BC, provides comprehensive multi-discipline design and engineering service to assist our heavy industrial core clients in maintaining and upgrading their facilities, specializing in small and medium sized capital and maintenance, single and multidiscipline projects.

A career at Fransen offers you an opportunity to develop your knowledge and skills, on a variety of projects, in a supportive and collaborative environment.

SUMMARY:

Senior Piping Designers are responsible for the design and detailing of various piping systems, under the general direction of the Project Leader.

ESSENTIAL RESPONSIBILITIES:

- Creating, supervising and/or checking general arrangements, piping plans, sections, details, isometrics, tie-ins, pipe supports, and vessel drawings
- Differing amounts of travel will be necessary for on-site measurements and field checks
- Responsible for adhering to all health and safety policies and guidelines

REQUIRED SKILLS:

- A minimum of 10 years related piping design experience
- 2D/3D AutoCAD
- Autoplant 3D
- Microstation, PDS, or other 3D Design Software is considered an asset
- Site experience in dealing with contractor questions
- Good interpersonal skills required for internal team interfaces
- Worked in an engineering environment for the Pulp & Paper, Oil Refining, Oil Sands, Gas, Power Generation or Mining sectors

EDUCATION:

- Relevant technical post-secondary education
